Vivid light for accentuating white and colour combinations

What is Segula Vivid Line?

The new Segula Vivid Line is a major breakthrough in LED Technology with the color spectrum incorporate with over 1 billion colors within its wavelength. The Vivid Line provides the optional lighting balance for the space and enhance the appearance of interiors – making wood, food and skin tones appear more natural and lifelike. Segula believes light is not just a media that provides brightness, light is the essence of visual storytelling and refined emotion.
